I am considering going over there to work. I wanted to know your experience with LAX. I would be working w/ Denise Sample.

Well I sure can tell you about LAX. We are actively working with them on all kinds of things. Thus, "status" is a big question.

Re "Commewrcial Development," I think of Denise Sample, their Director of Real Estate who I called today.

The real change is occurring with Lisa Trifilitti re the Northside lands. She's currently in Italy with her husband and we're having lunch twice when she returns.

Is that what you wanted to know? LOL.

How can I help you?

Hello.

Hey can you please give me the status of the Airport? Are you all working with the Commercial Development Department?

Thanks.
